

# They Called Columbus "Nuts," Too!

## Permanentech<sup>SM</sup> Vibration-Proof Fastening System

### *A New World for Industry!*

- **Proven Performance**, VIBRATION PROOF Self-Locking nuts and bolts can be produced in metal or any malleable plastic - all sizes
- **Multi-Patented** VIBRATION PROOF Technology exceeds more than 7,000 tough "Junker-Shaker" vibration test cycles and beyond!
- **Unique** VIBRATION PROOF Channel Design features innovative lock-in interval engagements
- **Exclusive** VIBRATION PROOF Technology obsoletes all other industrial fasteners without exception
- **Versatile**, VIBRATION PROOF Technology makes products safer, lowers warranty costs, protects against potential rattles
- **Pioneering** VIBRATION PROOF Fasteners perform regardless of seat torque - locking non-clamp-load dependent
- **Removal Tool**, VIBRATION PROOF system includes patented nut removal tool for easy bolt re-use

Rugged, Self-Locking VIBRATION PROOF Fasteners achieve what was never before been deemed possible

**Typical Applications:** Automotive • Marine • Aerospace • Off-Road Vehicles  
• Industrial Machinery • Defense • Construction • Medical • Electronics
